Deprecated Documentation

The WebTester documentation is deprecated. It contains only information relevant up to v0.9.9 / v1.0.0 of WebTester. For the current development visit our [GitHub](#) page or the [Project Homepage](#).

Welcome to the NovaTec testIT documentation space!

Please select a product documentation from the left hand side.

New and Noteworthy

Date	Project	Description	Link
2015-11-17	WebTester	Version 1.0.0 released. This is the first version based on the open source project on GitHub . It is functionally identical with 0.9.9 but all deprecated API was removed and some cosmetic issues were fixed. This version also marks the end of this documentation space. The documentation for the open source project can be found here .	Changelog
