in developing plug-ins, components, and plans for automaIT.

- Creating an automaIT Plug-in
- Data Schema Reference
- Development Environment
- Frequent Pitfalls
- Model Extensions
- Model Schema Reference
- Object Oriented Modelling with automaIT
- Simple Code Examples
- Simulation Mode
- Substitution Language

Support

Now we can solve

s GmbH provides professional support for the product automaIT.

The support may be reached via the following support channels:

Support Channel	Contact	Note

Ticketing System	https://support.novatec-gmbh.de	User must be registered
E-Mail	support.automait@novatec-gmbh.de	
Telephone	(+49) 71 22 04 0 76 00	9:00 am - 5:00 pm CET Monday to Friday, excluding public holidays

The preferred support channel is the ticketing system because required information is provided. Using the browser plug-in Bonfire eases the creation of support issues.

Further details regarding support for automaIT can be found on the [Support page](#).
